

SPECIAL EDUCATION: MATHEMATICS AND SCIENCE TEST FRAMEWORK WORKSHEET

Notes:

		Selected-response questions (approx.)	Constructed-response assignments					
Test (Test Code 088)	MATHEMATICS		33	1				
	0012	Understand concepts and skills related to numbers and mathematical operations.						
	0013	Understand principles and applications of measurement and geometry.						
	0014	Understand concepts and skills related to algebra.						
	0015	Understand concepts and skills related to data analysis and principles of probability.						
	0016	Understand processes and approaches for exploring mathematics and solving problems.						
	SCIENCE		27	1				
	0017	Understand concepts and principles of earth science.						
	0018	Understand the concepts and principles of physical science.						
	0019	Understand the concepts and principles of life science.						
	0020	Understand the characteristics, tools, and processes of science.
